

DEEPIINSPECTS

A Flagship Brand of Deepinspect Industrial Services LLP

COMPANY PROFILE
2025

The **DeepInspects** Difference

We don't Quality - We engineer it into every process
We don't follow standards - We advance them
We don't just detect flaws - We eliminate their possibility

Miss Nothing, Inspect Everything.

About Us

DeepInspects, the flagship brand of **DeepInspect Industrial Services LLP**, is a trusted partner delivering expert solutions in Non-Destructive Testing (NDT), Third-Party Inspection, Technical Manpower, HR & Legal Services, and Renewable Energy Project Support across India and Globally.

Driven by our motto, **“Miss Nothing, Inspect Everything.”**, we ensure uncompromising quality, safety, and compliance for industries navigating complex operational and regulatory landscapes. More than inspectors, we are business enablers—solving workforce gaps, simplifying compliance, and streamlining operations to help our clients stay focussed on growth.

With **DeepInspects**, you gain a reliable, future-ready partner committed to delivering precision, integrity, and performance at every step.

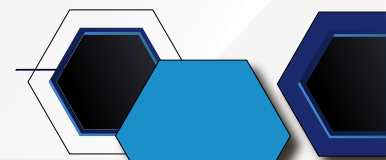

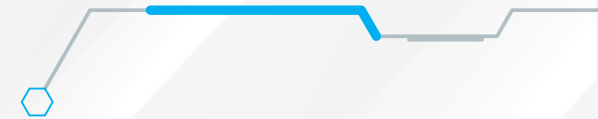

Why Industry Leaders Trust Us ?

- ✓ Strategic partner to Fortune 500 companies, SMEs and government agencies
- ✓ Proven expertise in high-stakes sectors: Oil & Gas, Aerospace, Infrastructure & many more
- ✓ Technology-driven approach combining advanced NDT with AI-powered analytics
- ✓ End-to-end accountability from project inception to compliance certification

“We don’t just meet standards – we redefine operational excellence.”

Trusted by global leaders to inspect, optimize, and future-proof industrial operations, **DeepInspects** is where industry challenges meet innovative solutions.

To transform India into Global epicenter of manufacturing excellence, where every industrial output - from raw materials to finished products - sets unmatched quality benchmarks recognized worldwide.

We will achieve this by...

- ◆ Instituting fail-safe quality ecosystems that make compromise impossible
- ◆ Developing self-regulating systems where technology and human expertise converge to eliminate errors
- ◆ Creating an environment where every contributor receives dignity, recognition and growth proportional to their dedication

We empower India's manufacturing future by merging cutting-edge AI and block chain for flawless quality, building a world-class workforce through meritocracy and up skilling, and delivering unmatched consumer trust with military-grade precision setting new Global benchmarks through adaptive standards and cross border collaboration, where India's ambition meets world-class execution.
